

Curtains

Pull back the curtains and let in the light or shut out the first light so you can sleep in on Sunday mornings with curtains custom-built for your new geodesic dome.

This curtain kit is easy to install and includes the curtain rod and hangers. With curtains that cover the full height and width of the clear PVC window, you can choose when you want to see and be seen.

Additional Specifications: Black out curtains to help with insulating. They will have a curtain track that attaches to the dome frame. Available in White, Khaki or Grey and custom colours available upon request.
